• ME & MY OLD MAN

THAT'S A WRAP

The Griffiths Family

Vaughan's life story, in his own voice.

FRIDAY 25 SEPTEMBER 2026

• ME & MY OLD MAN

Dear Geoff, Nicola & Vaughan,

Here it is. Every chapter and every memento, all in one place and all yours to keep.

From a paper round to a proposal pending, from the grotty flat to happy places and cats, it's all here.

I hope these last few months have been as reflective and as joyful for you as they have been for me.

Neil

So if you downloaded them before, please download them again. The next few pages show you how.

GETTING IT ONTO YOUR PHONE

Downloading

1

Download

Open the Stories folder. Tap each chapter, then **Download**. On a computer, click the arrow next to the folder name and choose **Download** to get all ten at once.

2

iPhone

Quickest: open the **Files** app and tap a chapter to play. For the full experience, with the artwork and CarPlay, tap and hold each chapter, choose **Share**, then **Add to Music**. On a Mac, ctrl + click the files and open with **Music**.

3

Android or PC

The files play in any music app or media player. The artwork is built into each file, so it shows up on its own.

ADDED THEM ON YOUR MAC?

Getting them onto your iPhone

On your Mac

1. Open **Music**.
2. Go to Music → Settings → General.
3. Tick **Sync Library**.
4. Check you're signed into the same Apple Account as your iPhone.
5. Add the chapters to Music, if you haven't already.
6. Give it a few minutes to sync to your iCloud Music Library.

On your iPhone

1. Open **Settings**.
2. Go to Apps → Music.
3. Turn **Sync Library** on.
4. Open the Music app.
5. Go to Library → Albums and look for Vaughan's.

No cables needed. You don't have to plug the phone into the Mac.

LISTENING AND SHARING

Pass it round the family

Sharing the folder

1. Keep everything in Google Drive.
2. Click the three dots next to the folder.
3. Click **Share** → **Copy link**.
4. Send it to the family.
5. They download, they listen. Done.

A note on Spotify

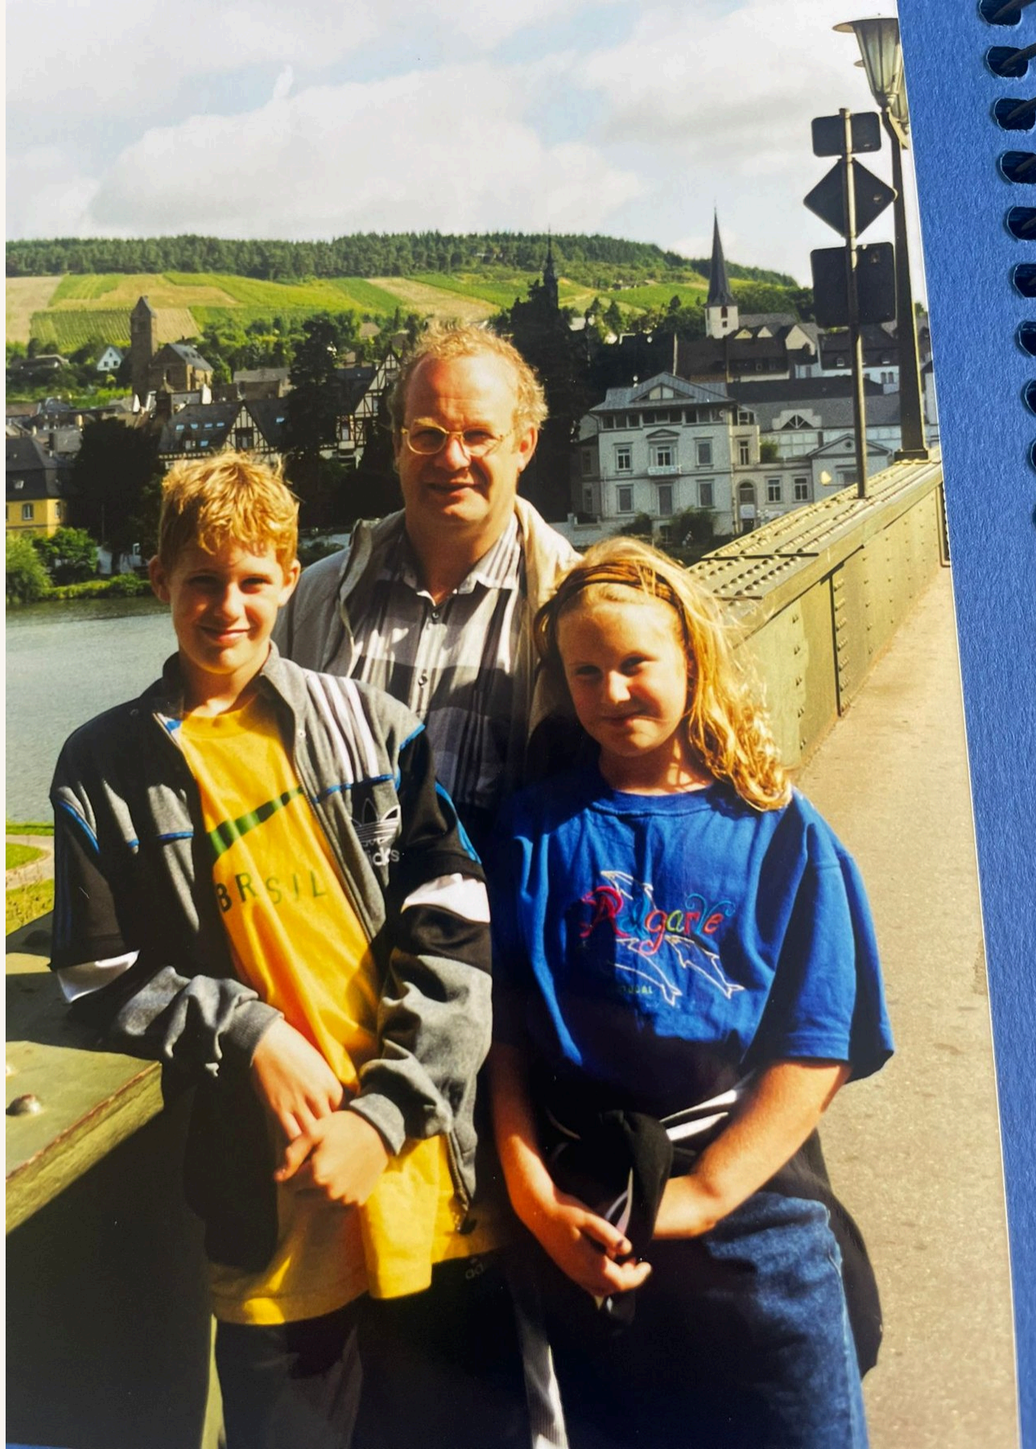

I'd steer clear of Spotify for this. It needs setting up on every device separately, and it won't share between family members unless you pay for a hosting platform. The Google Drive route is much smoother for everyone.

KEEPING IT SAFE

Save it *everywhere.*

I'd love every one of you to keep your own copy of the chapters and mementos, in as many places as you can: your computer, Google Drive, Dropbox, iCloud, a USB stick, an external hard drive.

And put it in your wills. I mean it.

Thank you.

Thank you for trusting me to be your guide, and for letting me into your family for a while.

Vaughan, thank you for every story. The Old Bear is on the record now, in his own voice, for Geoff, for Nicola, and for Eva, River and Raff, whoever comes next. Maybe even Sue one day :)

PASS IT ON

Somebody came to mind. *Didn't they?*

A friend whose dad has never really been asked. A colleague whose mum drops enormous stories into conversation and moves straight on.

You can hand them what you've just had. Send them to meandmyoldman.co.uk/refer-griffiths — it will only be live once I can get your consent on the clips to use.

And when an introduction becomes a project, there's a **Life Story Snapshot** waiting for you: a 1.5-hour session with a trained listener, recorded and edited, worth £750. Use it for a new chapter with Vaughan in a year's time, or give it to Geoff or Nicola so they can start their own.
